EDUCATION

University of Manchester Sep 2026 – Aug 2027

MSc Robotics Manchester, United Kingdom

Relevant Modules: Autonomous Mobile Robots, Robotic Systems Design Project, Reinforcement Learning, Cognitive Robotics and Computer Vision, Robotic Systems, Robotic Manipulators, Software for Robotics

Scholarship: Global Future Scholarship (£10,000), awarded by the University of Manchester

Mukesh Patel School of Technology, Management & Engineering (NMIMS) 2021 – 2025

BTech Integrated (Electronics and Telecommunication) | *CGPA 3.56/4.0* Mumbai, Maharashtra

PROFESSIONAL EXPERIENCE

UPL Ltd. Jul 2024 – Nov 2024

Cybersecurity Intern Hybrid

- Monitored email security with Cloudflare, supporting detection of and response to email-based threats
- Contributed to a data protection and privacy handbook tailored to the organisation, aligned with DPDPA, GDPR, HIPAA and related laws
- Drafted guidelines for the secure and compliant use of Generative AI across the company

Greenenable Technologies Pvt Ltd Jan 2023 – Apr 2023

Summer Intern On-site

- Researched MQTT-based communication using ESP8266 and ESP32 microcontrollers and AWS
- Used Arduino IoT Cloud to access and review outcomes of a project on air conditioning systems
- Completed a beginner course in Postman for working with APIs

TECHNICAL PROJECTS

Stock Market Predictor May 2026 – Jul 2026

- Developed a hybrid CNN-LSTM model to forecast stock market trends with 96% accuracy, processing and normalising time-series data
- Evaluated performance using MSE/RMSE and built visualisations comparing actual and predicted trends
  Tools: *Python, Deep Learning, CNN, LSTM*

Endless CNC Rover Jan 2025 – Apr 2025

- Designed and built a portable CNC laser engraving rover with omnidirectional mobility
- Provisionally selected for publication by ICASTM
  Tools: *Arduino IDE, AccelStepper library, custom G-code parser, ESP8266 web server*

Smart Sewer System Oct 2024 – Nov 2024

- Built an alert system that signals flooding in sewers, to help prevent floods and accidents
  Tools: *ESP32, Raspberry Pi 3+, HC-SR04 ultrasonic sensor*

SKILLS

Programming languages	Python, C++, SQL (basics)
Platforms and tools	Arduino IDE, Google Colab, Microsoft 365, VS Code, AutoCAD, Tinkercad, MATLAB, Scilab, MITRE ATT&CK, Cloudflare (email security), Modbus, Mosquitto
Hardware	Arduino Uno, ESP8266/ESP32, MQTT server
Operating systems	Windows, Android, macOS
Professional	Time management, quick learner, problem solving, team leadership, critical decision making

PROFESSIONAL CERTIFICATIONS

- The Raspberry Pi Platform and Python Programming for the Raspberry Pi (Coursera)
- Interfacing with the Arduino (Coursera)
- Introduction to the Internet of Things and Embedded Systems (Coursera)
- The Arduino Platform and C Programming (Coursera)

LEADERSHIP EXPERIENCE

- Executive of Department (Operations and Logistics), Innovation and Entrepreneurship Cell (IEC)
- Member, Parish Youth Council, St. Joseph's, Juhu (since 2020). Organised events and summer workshops for children and parents
